24 Available Colors

Delivery Conditions

I. Stock Products

Ordered by noon will be shipped the following day.

II. Custom Manila or Kraft Folders

(1) 10,000 pieces or less with custom print and heat bonded fasteners (using stock folders only) will ship in 2 weeks.

(2) Any quantity with custom print, colorcoding, pockets, or fasteners will be shipped in 6 to 8 weeks.

III. Custom Colored Folders (3,000 Minimum per Color)

6 to 8 weeks with any custom capabilities.

IV. Custom X-Ray Jackets

Without colorcoding will ship in 3 to 4 weeks.

With colorcoding will ship in 6 to 8 weeks.

V. Pressboard

Any printing of Pressboard Folders will require a 6 to 8 week lead time.

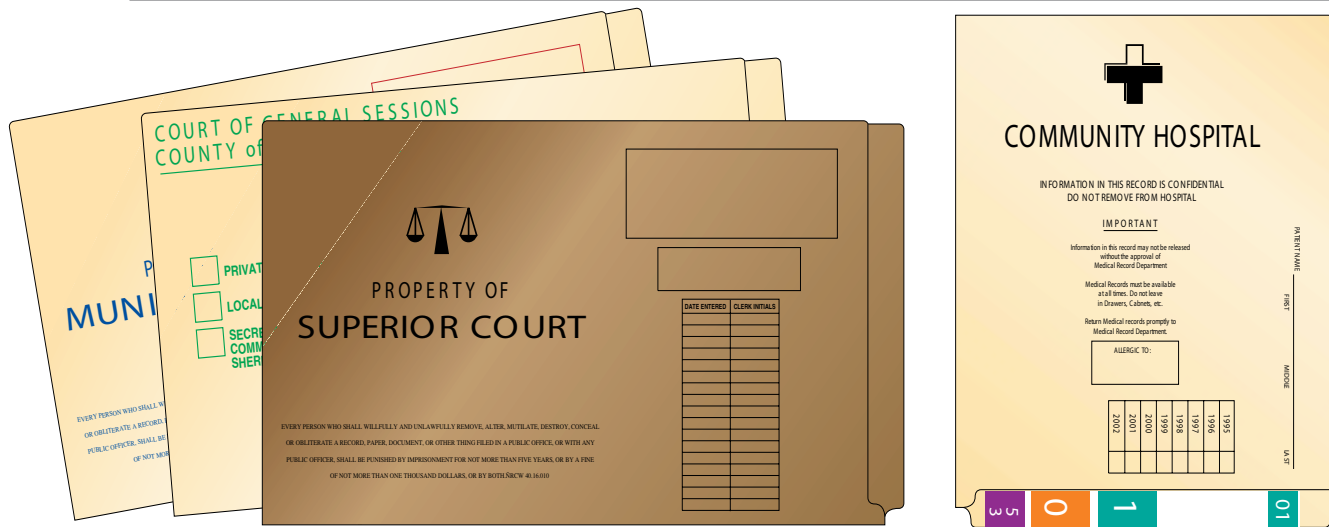

VI. Quick Ship Pressboard Program

Pressboard orders without printing and with 3 Dividers or less, a 3 week delivery is applicable. Maximum order is 1,500 pieces for this quick delivery.

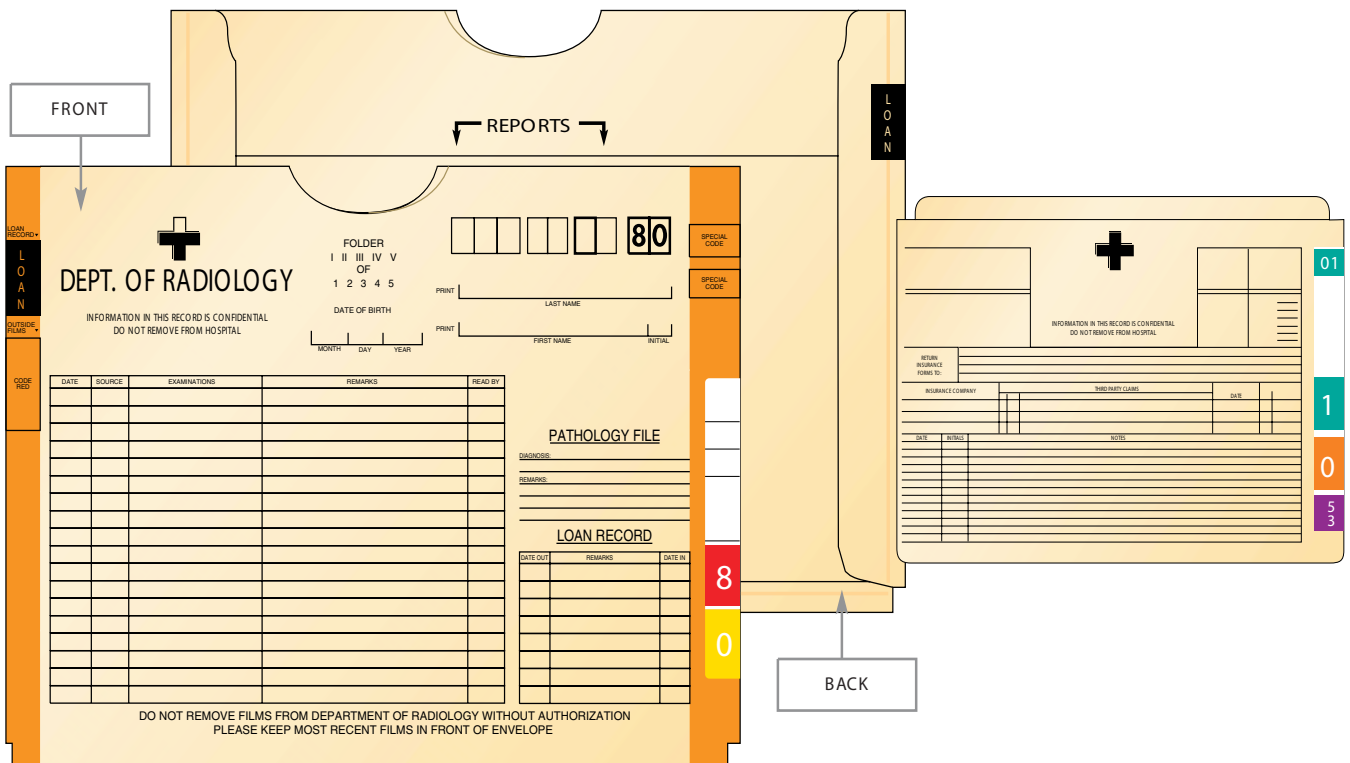

Custom Printing & Design

Our custom printing, graphic design and composition capabilities allow us to provide unlimited creative support services for enhancing, redesigning or reproducing products for existing filing systems. From basic one-color printing to custom color, we provide quality products and on-time delivery. Certain minimums apply and an approved proof is applicable when custom printing is involved.

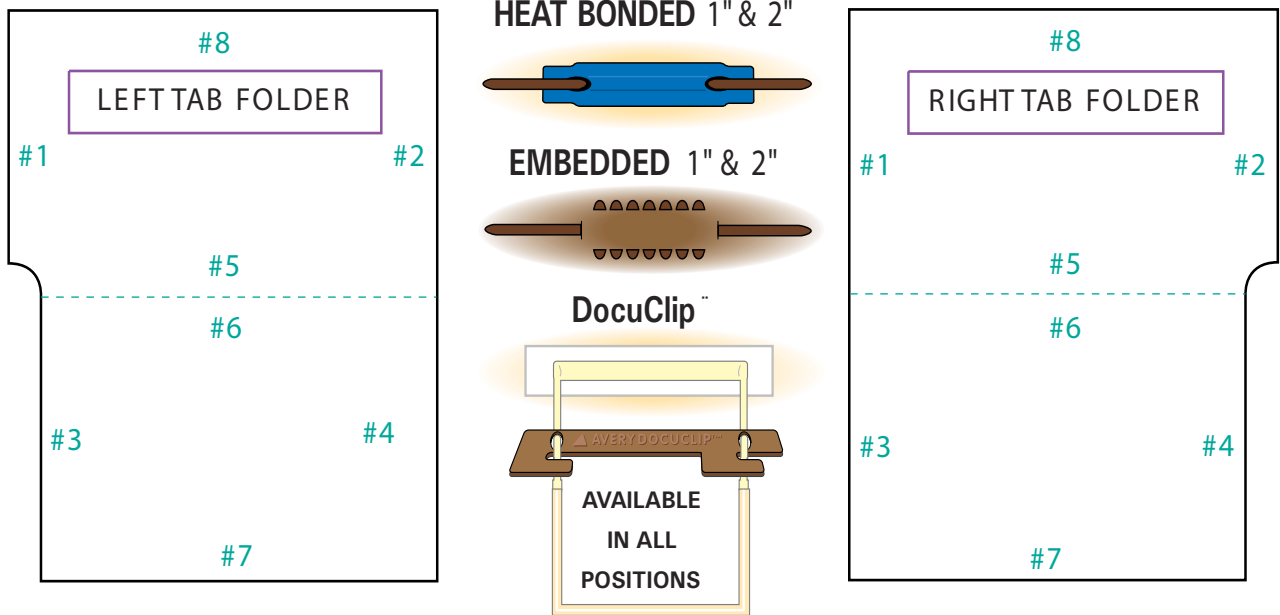

- **Folders**

- **X-rays and Mini-Jackets**

Fasteners may be installed in any folders. When ordering for sheet size other than letter or legal submit a sample or diagram locating the fastener position desired.

Strip Labels Only. Available in white or manila paper.

Color Coding

• Straight Numeric Filing Systems

USES:

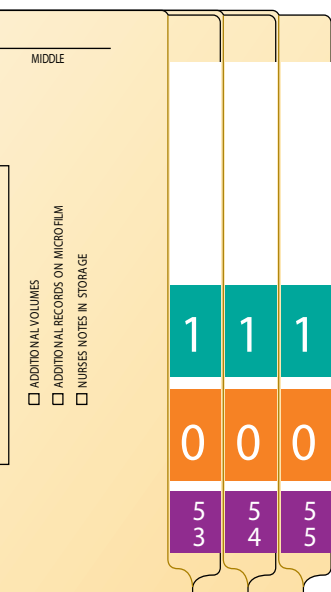

Straight numeric filing systems may be used in any application that relies upon a numerical identification where numbers are assigned in a **consecutive order**. This system is not effective if there are large skips in the numbering sequence because this will create gaps in the color coding.

FEATURES:

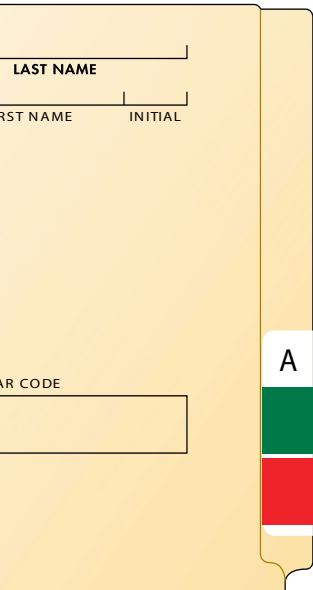

Straight numeric filing systems are simple to understand and implement. **Simply**, each digit, 0-9, is given a color assignment. Each Folder is filed on the shelf, one after the other in sequential order, thus creating a blocking effect with color bands. If a particular file is placed on the shelf in the incorrect sequence, the color bands will not match and the misfile may be easily spotted by scanning the files.

ADVANTAGES:

1. Allows misfiles to be spotted simply by scanning the files.
2. Each number is assigned and filed in sequential order - one folder behind the previous folder.
3. Filing and retrieval time is quick because each folder has a **specific** place in which it is filed.

• Alphabetic Filing Systems

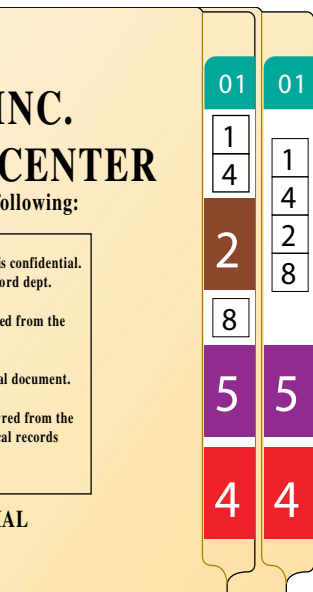

FEATURES

A very versatile system. There are many different types and styles of alphabetic systems. An alpha system may be custom designed to meet your needs. It may be simple or as detailed as necessary.

ADVANTAGES

1. The need to cross reference is eliminated
2. Easy to understand
3. Small quantities may be kept in inventory (depending on system utilized)
4. Versatile
5. Can be used in various sized applications

¥ Terminal Digit Systems

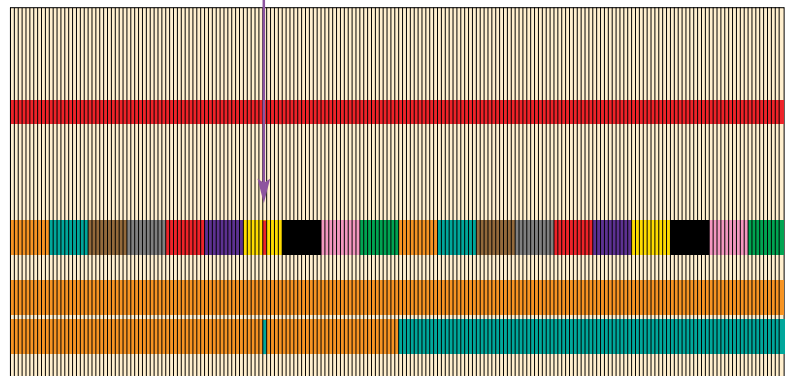

FEATURES

Terminal Digit filing is an efficient filing method for systems that exceed 10,000 records or have gaps in the numeric sequence. The file location is determined by reading the file numbers in groups. The last two digits first. For example 14-28-54 is filed in 54th section of the Terminal Digit system.

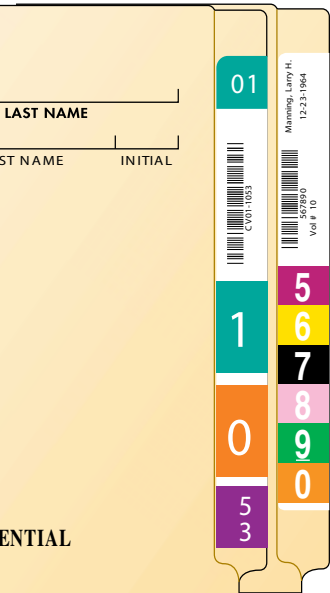

ADVANTAGES

1. Effective where sequential numbering is impossible
2. Effective for maximum file control in large systems
3. Effective when number assignments are made by computer with skip numbering
4. Effective where social security number is used for file number
5. Effectively reduces number of cases needed on the floor at one time if space is a problem
6. Reduces back shifting when records are purged

MISFILE

• Computer Generated Strip Label Systems

USES:

Computer Generated Strip Labels may be used to create any type of Color Coded System. They may be ordered as a complete system utilizing our folder/jacket systems or ordered for on-site color coding. Labels may include color bands, bar codes, name indexing or other pertinent information.

FEATURES:

1. Custom design
2. 16 million color combinations
3. Acrylic adhesive backing
4. Poly coated cover
5. Horizontal and vertical text
6. Top and side tab styles
7. Tear resistant
8. All labels are large and easy to read (1.4"W X 8"H)
9. May also be ordered as an adapt-a-tab to convert top tab folders to side tab (size 2 1/2"W X 8"H)

¥ Barcode Filing Systems

USES:

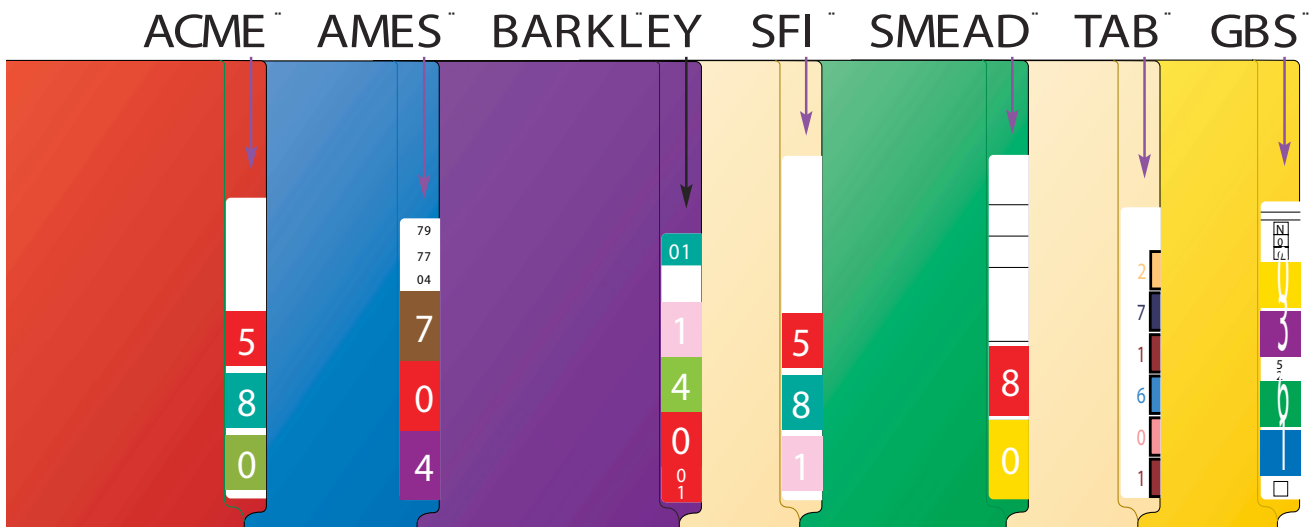

Barcode labels may be applied to the front of folders for certain applications, such as record charge out systems.

FEATURES:

1. Self adhesive and laminated
2. Available in code 3 of 9 or Mod 10 format.
3. 3"W X 1"H in size.

¥ All Systems Custom Matched:

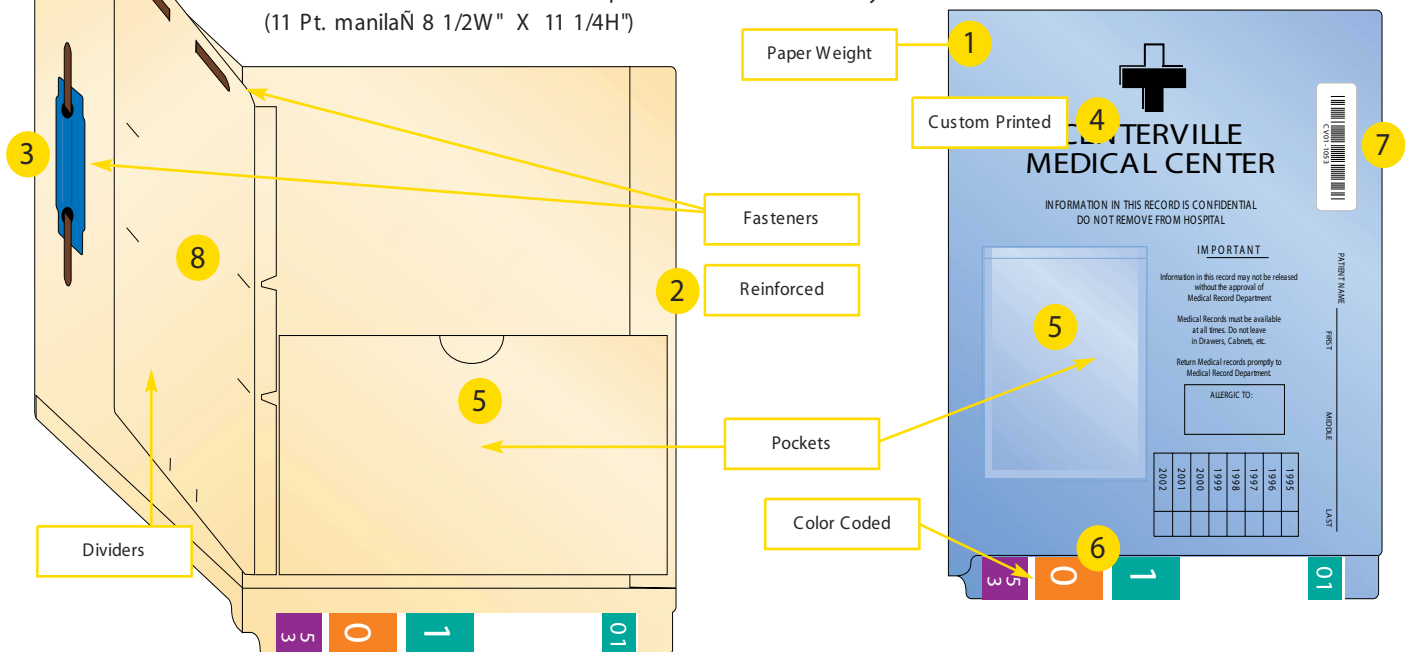

Custom Medical Records

• Medical Record Folder Construction

- 1 **PAPER WEIGHTS**
Available in 11, 14, 15, and 18 Pt. manila or 11 and 17 Pt. kraft. Colored Paper is also available, 11 and 15 Pt.; Please contact the factory for further details.
- 2 **REINFORCING**
May be ordered with reinforced top tab, reinforced side tab or reinforced top and side tab. Mylar® or Tyvek® can also be applied to further reinforce the spine.
- 3 **FASTENERS**
Fasteners may be installed in any of 8 standard fastener positions. Three different styles of fasteners are available - heatbonded (1" or 2" prong), embossed (1" or 2"), and DocuClips®.
- 4 **CUSTOM PRINTING**
Folders may be custom designed with special imprints on the outside surface, inside surface or both. Rough copy must be supplied for type-setting.
- 5 **POCKETS**
Different styles of pockets may be installed to meet your needs. Pockets may be designed to store microfiche, cards or plastic credit cards. Suggested styles of pockets are as follows: Plastic, envelope-style, manila, and kraft.
- 6 **COLOR CODING**
Folders may be color coded with one-piece strip labels to meet your file needs and to solve your file problems. The basic color coded systems are Alphabetical, Straight Numeric and Terminal Digit. Color coding may be designed to solve a particular need or may be duplicated to match virtually any existing system. After labels are applied to the side tab of folders, heat-sealed Mylar® is placed over color bands to reinforce side tabs and to protect bands from fading, fraying or getting dirty.
- 7 **BAR CODING**
Bar code labels may be applied to the front of folders for applicable situations. Code 39 or 3 of 9 is more common and can easily be provided to solve your needs.

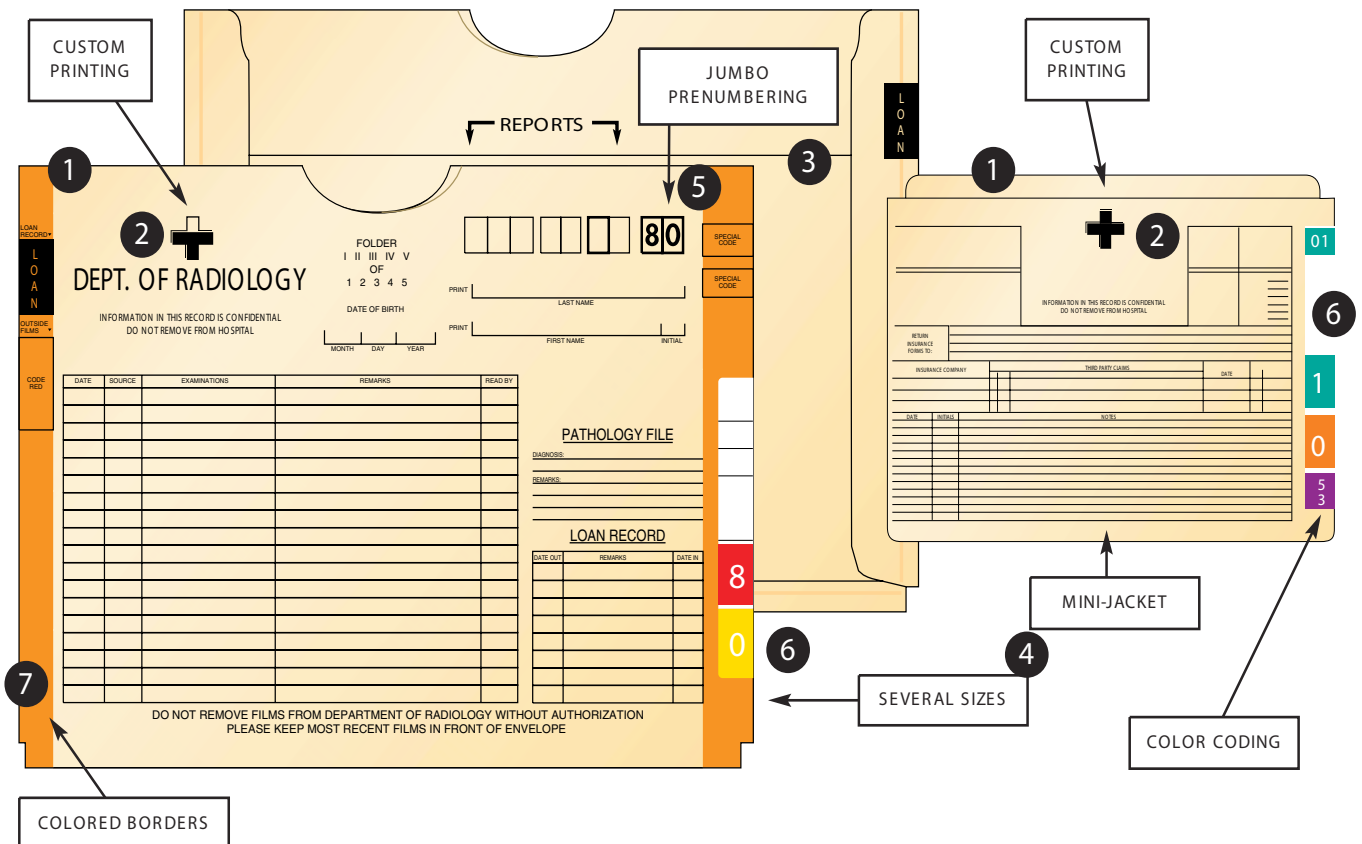

- 8 **DIVIDERS**
Peel-and-stick dividers are available to provide added functionality to custom medical records.
(11 Pt. manila 8 1/2W" X 11 1/4H")

Custom X-ray Jackets / Mini-Jackets

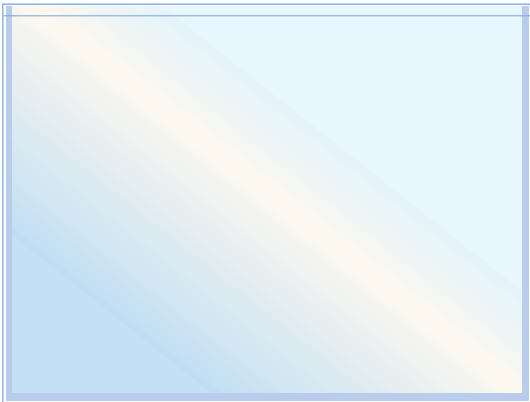

• Features

- 1 **PAPER WEIGHTS**
Available in 11, 14, and 18 Pt. manila or 11 and 17 Pt. kraft. Colored Paper is also available, 11 and 15 Pt.; Please contact the factory for further details.
- 2 **CUSTOM PRINTING**
One or two color printing is available.
- 3 **POCKETS**
A plain or printed report pocket may be positioned on the front or back.
- 4 **SIZES**
May be ordered in several basic sizes. Standard is 18 1/4" W X 14 1/2" H.
- 5 **NUMBERING**
May be JUMBO numbered in outline blocks printed on X-ray Jackets
- 6 **COLOR CODING**
Easily color coded to meet filing requirements.
- 7 **COLORED BORDERS**
May be printed with colored borders and/or scales to match T.C.U.C.P., Colorscan or Smead X-ray file systems.

Poly & Paper Pockets

Several different styles of pockets may be installed to meet your specific requirements. Pockets may be designed to store microfiche, cards or plastic charge type cards. Suggested styles of pockets are as follows: plastic, envelope-style, manila, and kraft.

Pressboard Classification Folders

We have the capability to custom manufacture pressboard folders to meet your specialized filing needs. Because we specialize in customization, we do not stock any folders. However, because we DO stock a wide variety of all the basic component parts (pressboard, TYVEK™, etc.), we have the capability to offer quick deliveries on basic folders. Because of STS's custom manufacturing capabilities, folders for all filing requirements (medical, legal, financial, etc.) can be designed to meet your specific needs and delivered quickly.

MANUFACTURING OPTIONS ARE AS FOLLOWS

1. PRESSGUARD™, Type I GENUINE PRESSBOARD™ (choose from 22 vibrant colors or Guidex™ Type II & Type III Pressboard)
2. Color complimentary TYVEK™ gussets (gray is the most common).
3. Dividers are available in 11, 14 or 18 Pt. manila or 11 and 17 Pt. kraft
4. 1" or 2" Fasteners (heat bonded, embossed, or DocuClips™)
5. Custom printing
6. Custom color coding
7. Pockets may be added (manila, kraft, poly, or vinyl)
8. Colored mylar on tabs for quick referencing
9. Recycled stock available
10. Folders may also be manufactured from 11, 14, 15 or 18 Pt. manila or 11 and 17 Pt. kraft, with the same options as pressboard folders.

CONSULT YOUR REPRESENTATIVE for PRICING, DELIVERY, INQUIRIES, or SPECIAL NEEDS.
