## Glass Stacker with Bracket

Universal Panel Stackers allow you to add additional heights to your existing systems workstations. Promote safety by creating boundaries between members. Compatible on Maxon panels, as well as a variety of different panel thicknesses from other office furniture manufacturers.

- Panel bracket accommodates panel thicknesses ranging from 1.935" – 3.400".
- Panel bracket is adjusted for a perfect fit using a hex key to tighten the adjustment screw on either side.
- Tempered Clear glass is offered 15"H, 22"H and 0.6MM thick
- Stackers are offered in 6" increments from 24"W through 96"W (nominal widths)
- Stackers are undersized by 1" on each side (2" total) to accommodate different competitive panel widths & pinchpoints
- When ordering Glass stackers the brackets are included with purchase. See chart below.
- Bracket is sold as a separate model if client wishes to source an alternate material themselves. Bracket comes with Black Shim.
- Brackets will be available in our standard paint offerings. Adjustment screws available in black only.
- Simple installation and does not deface exiting panels when attached.
- Limited Lifetime Warranty when used on Maxon Systems Products
- Standard lead times apply

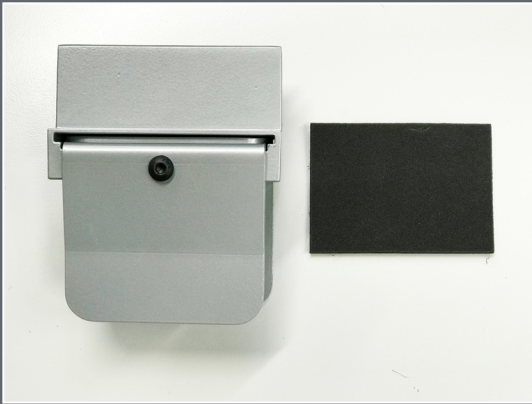

Bracket Information

Width	Brackets
24"	2
30"	2
